EMS Awareness Training Course

About Qdot

www.qdot.ae

Qdot managed by a team of experienced professionals, is committed to promote quality & excellence culture in GCC (UAE, QATAR, KSA, Oman, Kuwait, Bahrain)by providing below mentioned services.

Management System Services

- ISO 9001, ISO 14001, ISO 45001, HACCP, ISO 22000, FSSC 22000, BRC GS, Halal, ISO 22716 (GMP),Organic Certification, ISO 27001, ISO 41001, ISO 37001, ISO 50001, ISO 55001, ISO 17020 & ISO 17025 etc

Training Services

- IRCA Approved Lead Auditor
- Awareness & Trainings on ISO Standards

Product Registration

- SABER, SQM, SFDA, CITC, IECEE, ECAS, EQM, RoSH, EESL, SLCP, G-Mark etc

Social Compliance

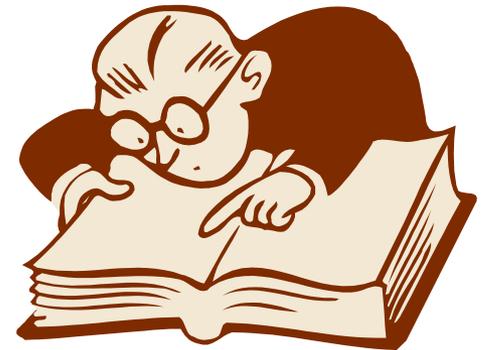

- SEDEX-SMETA, SA 8000, amfori BSCI, ISO 26001, WRAP, GRLI, ESG, CTPAT etc

Qdot

Today's Agenda

- Introduction to course
- EMS Overview
- Covering changes arising as a result of the adoption of Annex SL
- Covering changes arising as a result of changes to the standard specific content.
- ISO14001:2015 Requirements

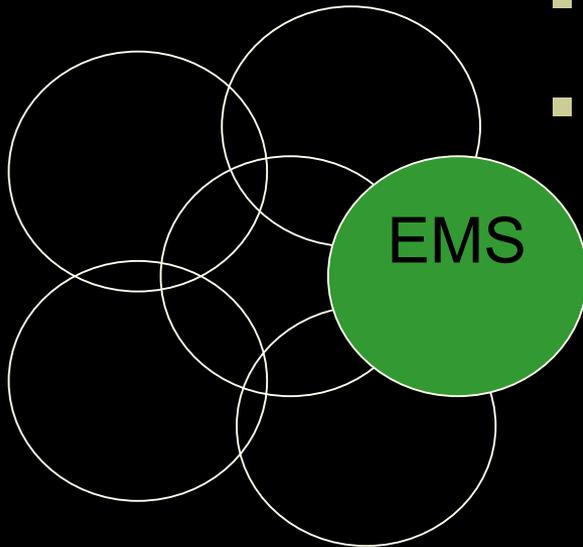

Environmental Management an overview

Environmental Management System :

part of the management system used:

- to manage environmental aspects,
- to fulfill compliance obligations,
- to address risks and opportunities

ENVIRONMENTAL MANAGEMENT SYSTEM

REQUIREMENTS

an overview

Qdot

Purpose of the standard

- To provide organizations with a framework, in balance with socio-economic needs, to
 - protect the environment and
 - respond to changing environmental conditions.
- To enable an organization to achieve the intended outcomes it sets for its EMS
- Contain the requirements used to assess conformity

Annex SL

- This annex with the objective of delivering consistent and compatible MSSs.
- Previously ISO Guide 83
- Defines the framework for a generic management system
- All new ISO Management System Standard (MSS) will adhere to this framework
- All current Management system standard will migrate to the framework at their next revision

Purpose of the Annex SL Appendix

www.qdot.ae

- To create a common text framework, which will be easier for organisations to utilise and for auditors to audit against.
- To improve the effectiveness, and value of management system standards generally by being more holistic.

Qdot

PDCA Cycle

www.qdot.ae

- **Plan:** Establish the system and its component needed
- **Do:** implement what is planned
- **Check:** Monitor and measure processes and the resulting products and services
- **Act:** take actions to improve process performance, as necessary

Qdot

High Level Structure

	Clauses	Topic
Plan	1	Scope
	2	Normative Reference
	3	Term and Definition
	4	Context of the organization
	5	Leadership
	6	Planning
Do	7	Support
	8	Operation
Check	9	Performance Evaluation
Act	10	Improvement

Purpose of the new framework

www.qdot.ae

- **Stable framework** for next 10 years
- **Generic** but still relevant to **all types** and sizes of organisation
- Focus on effective process management
- To reflect changes in the increasingly complex and dynamic working environment
- To apply uniform structure
- Simplify effective implementation & compliance review
- Simple phrasing to ensure common understanding and consistent interpretation

Qdot

Clause 4 : Context of the organization

www.qdot.ae

4.1 Understanding the organization and its context

4.2 Understanding the needs and expectations

4.3 Determining the scope of the environmental management system

4.4 Environmental management system

Qdot

External Context

External Context (PESTLE)	Example
Political	tax policy, political stability, nation election cause the change in government policy
Economic	Increasing fuel costs, exchange rates which reduces money for investing
Social	emphasis on workplace safety, influence by the government initiative (i.e OHSAS)
Technological	R&D activity, automation, technology incentives and the rate of technological change
Legal	Environmental law, Workplace Safety Act, and Labor Law
Environmental	Climate change causing flooding at the project location

Qdot

Internal Context (Examples)

www.qdot.ae

Internal Context (TECOP)	Example
Technical	Infrastructure and equipment and machinery used within the company for product and services
Economic	financial management systems, cash flow, capital reserves and commercial viability of the organization
Cultural	shared values (sustainability) and team works (bottom-up planning)
Organization	capabilities, policies, standards, guidelines strategies
Political (Internal)	Decision making by top down approach

Qdot

Example

www.qdot.ae

Architecture firm

1) External Context:

- i. Increase of local environmental awareness:
incorporate sustainability concept in design of building
- ii. High bank interest rate:
Reduction of investment from stakeholders

2) Internal Context:

- i. Due to low quotation: recycling materials are used to demonstrated the building model
- ii. Communication and decision making:
Team discussion and sharing to promote creativity and innovation in design concept

Qdot

Clause 5 Leadership

www.qdot.ae

5.1 Leadership and commitment

5.2 Environmental policy

5.3 Organizational roles, responsibilities and authorities

Qdot

Clause 6 Planning

6.1 Actions to address risks and opportunities

6.1.1 General

6.1.2 Environmental Aspects

6.1.3 Compliance obligations

6.1.4 Planning action

6.2 Environmental objectives and planning to achieve them

6.2.1 Environmental objectives

6.2.2 Planning actions to achieve environmental objectives

Clause 7 Support

7.1 Resources

7.2 Competence

7.3 Awareness

7.4 Communication

7.4.1 General

7.4.2 Internal communication

7.4.3 External communication

7.5 Documented Information

7.5.1 General

7.5.2 Creating and updating

7.5.3 Control of documented information

EMS Documentation

www.qdot.ae

- To maintain and control “documented information”
- “retain documented information as evidence of ” (record)
- “maintain documented information” (other documents)
- Procedure : Emergency preparedness and response (8.2)

Qdot

Clause 8 Operation

www.qdot.ae

8.1 Operation planning and control

8.2 Emergency preparedness and response

Q

Qdot

Clause 9 Performance evaluation

9.1 Monitoring, measurement, analysis and evaluation

9.1.1 General

9.1.2 Evaluation of compliance

9.2 Internal audit

9.2.1 General

9.2.2 Internal audit programme

9.3 Management Review

Clause 10 Improvement

www.qdot.ae

10.1 General

10.2 Nonconformity and corrective action

10.3 Continual improvement

Q

Qdot

Environmental Aspect Identification

Qdot

Environmental Aspect Identification

Cause → Effect

Aspect → Impact

Area / Source

Activities

Aspects

Normal?

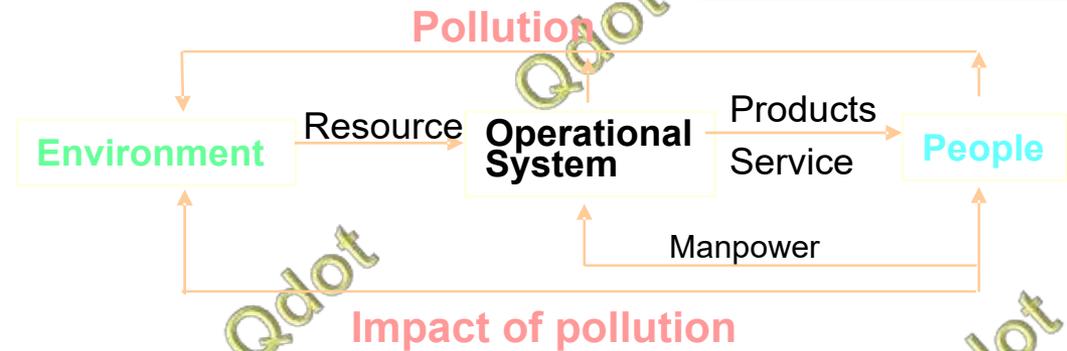

Abnormal?

Emergency?

Life cycle!

Change!

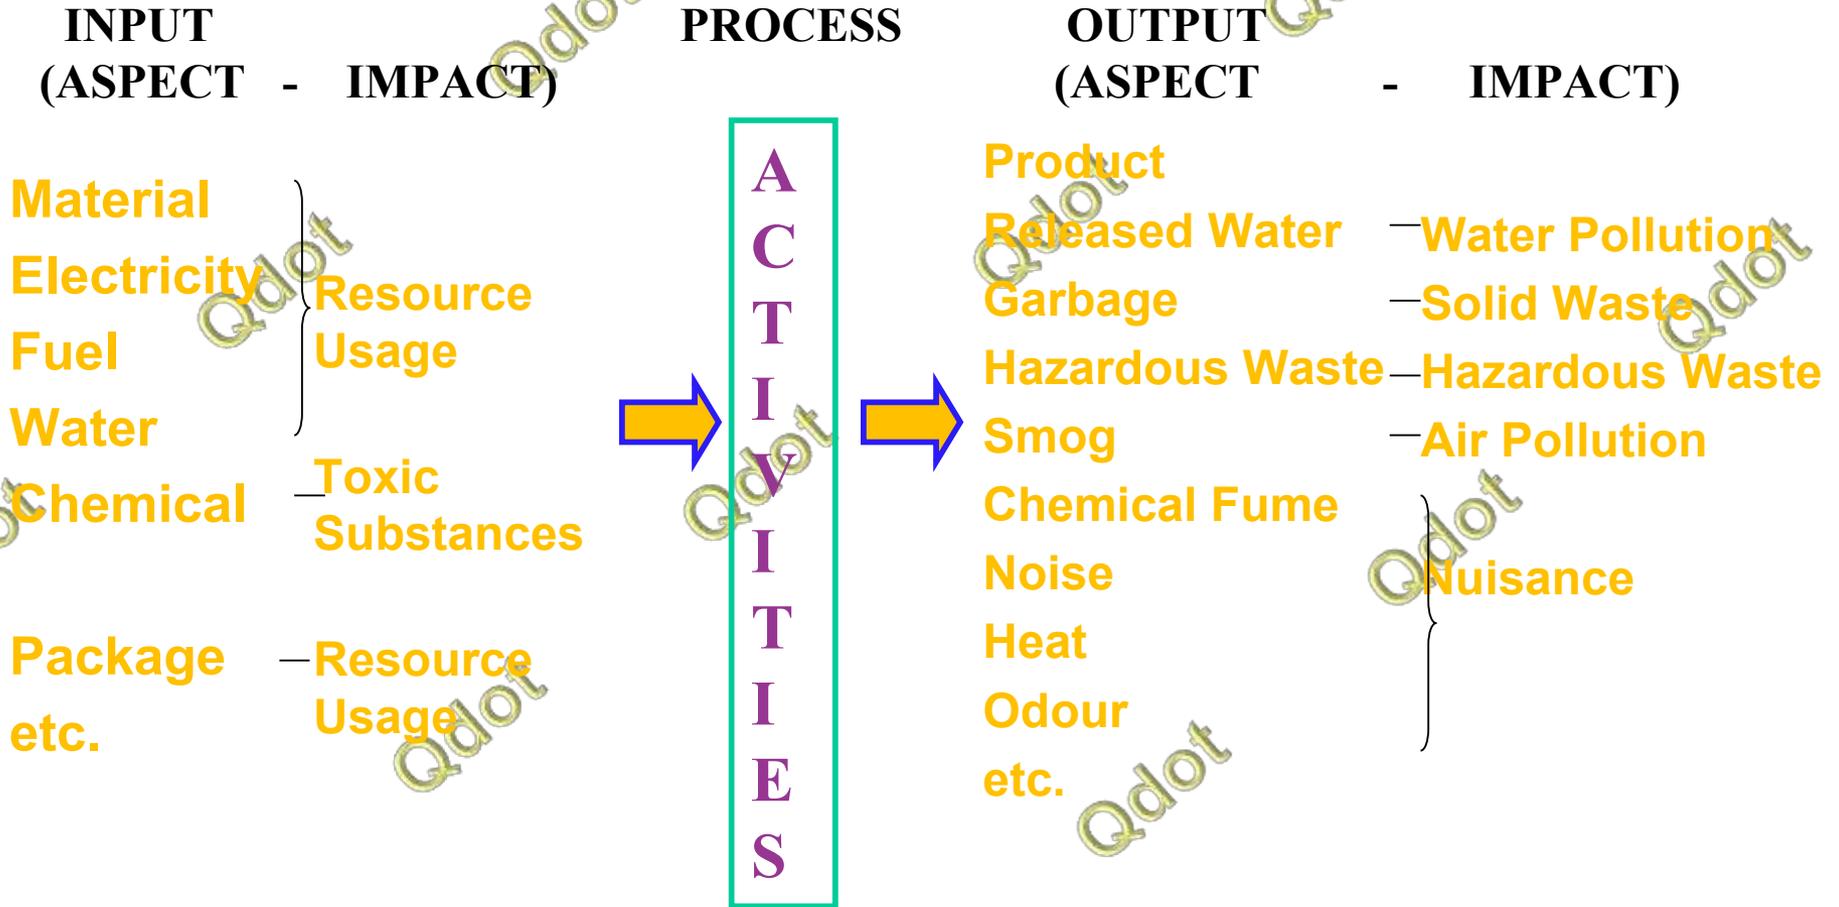

Environmental Issues

1. **Emission to air**
2. **Release to water**
3. **Release to land**
4. **Use of raw materials and natural resources**
5. **Use of energy**
6. **Energy emitted**
7. **Generation of waste & by-product**
8. **Use of space**

Material Balance Technique

Evaluation significance of impacts

- **Factor to be considered:**

Risk &
Opportunity

Environmental concerns:

- Scale of impact;
- severity of impact;
- probability of occurrence;
- duration of impact;

Business concerns:

- regulatory and legal impact;
- changing the impact;
- interested parties;
- public image;

Example of evaluation criteria (Qualitative Analysis)

- Probability of occurrence
 - Sensitivity of impact
 - Severity of impact
- } High
} Medium
} Low

PROBABILITY	M	H	H
	L	M	H
	L	L	M
	SEVERITY		

EXERCISE: Identification of Aspects of an Etching process
